# Faster, Easier Entry into the U.S. for Pre-Approved Travelers

Global Entry was developed to expedite international air travel by providing an alternative passport control process for pre-approved travelers – which means you don't have to wait in line anymore. Interested individuals apply online, are pre-screened for eligibility and are interviewed in person by a CBP officer. Once accepted into the program, participants can use self-serve kiosks (located in the U.S. Arrivals area of designated airports) that confirm biometric information (e.g., fingerprints) and read their machine-readable passports.

## Who Qualifies?

Only U.S. citizens, lawful permanent residents of the U.S. and citizens of certain other countries are eligible to participate in the Global Entry program.

Travelers may NOT be eligible if they:

- Have ever been convicted of a criminal offense in any country;
- Have ever been found in violation of the customs, immigration or agriculture laws or any serious criminal offense;
- Provide false or incomplete information on their application; or
- Fail to meet Global Entry program requirements.

*Note: Children under the age of 14 are not eligible to participate. Children between the ages of 14 and 18 will require written consent of a parent or legal guardian.*

## How Do I Apply?

Qualified individuals may apply for participation in the Global Entry program at [www.globalentry.gov](http://www.globalentry.gov). First-time visitors must set up a user account, complete the application and submit it electronically.

*Note: If you do not provide true, accurate, and complete information in your Global Entry application, we may deny your application.*

## BENEFITS

- Bypass the passport line.
- No more paper customs declaration.
- Expedited exit process.
- Mutual benefits with other countries.
- Conveniently located at most major U.S. airports.

## What Happens at the Interview?

Once CBP has received and reviewed your application, you will be prompted to schedule an in-person interview at one of the Global Entry Enrollment Centers. When you arrive for your interview, a CBP officer will review your application, interview you to determine your eligibility, take your photo, and collect biometric information. You must provide a valid machine-readable passport and one other form of identification such as a drivers license or identification card. If you are a permanent resident of the U.S., you must provide your machine-readable permanent resident card and one other form of identification that supports your residency claim.

If you are accepted into the Global Entry program, CBP staff will explain the terms and conditions of the program, and demonstrate how to use the automated airport kiosk.

## What Does it Cost?

A non-refundable processing fee of \$100 per applicant will be charged at the time of application. If approved, membership is valid for 5 years.

## How Do I Declare Goods?

As a Global Entry participant, you must declare all goods you are importing into the United States, either by using the self-serve kiosk or by going through a regular processing lane. You will be required to answer the Customs Declaration questions

presented on the kiosk; however, you will not need to complete the Customs Declaration Form (CBP 6059B) before arrival.

Please note that there are specific rules regarding the importation of certain items. For example, you must report any controlled, restricted, or prohibited goods, such as:

- Firearms or weapons, including mace, pepper spray and stun guns; and
- Goods, animals or plants, including biological substances, endangered animals or species, and fruits and vegetables.

In addition, if you are carrying over \$10,000 USD or foreign equivalent in currency or monetary instruments into the U.S., you must declare the currency using the regular inspection line. For more information, see the CBP brochure, *Know Before You Go*.

## What Happens When You Arrive at the Airport
